Homework is an integral part of preparing students for the future. Without regular homework, students will find it harder to achieve success at a national level. Bay of Islands College aims to develop sound work ethics and increased student productivity through regular homework.

The purpose of homework is to:

1. Reinforce what is taught in the classroom
2. Complete unfinished work
3. Prepare or research information for upcoming units
4. Review and revise what has been taught in the classroom
5. Encourage independent learning

Students can be expected to spend a minimum of 3 hours a week on homework.
